# The LONG and SHORT of it

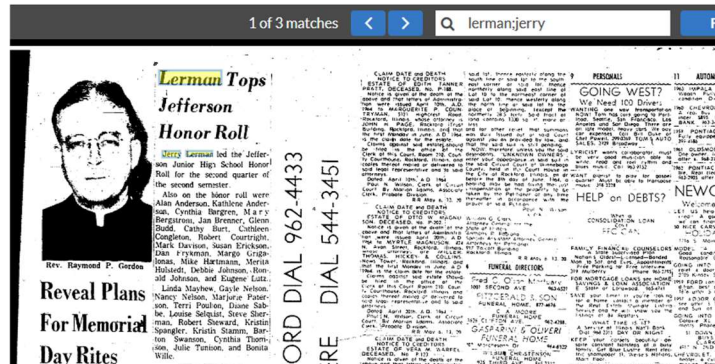

February comes up short in the longevity contest, as we know, but being short isn't necessarily a problem for these notable (but not necessarily famous) people, some of whom sport that as their last names. Others on this list have the last name LONG. As would make sense, there are fewer SHORTs than there are LONGs. Match each description to the appropriate first name and label if the person is a SHORT or a LONG.

apartments will be increased significantly. The old levee was a rocky breakwater with an upward facing sandy slope at its top. Next to the slope is a pedestrian road, followed by another downward slope covered in ice plants. The new levee will be a wall made up of interlocking metal segments stretching the entire length of the Foster City portion of the bay. If you want to see the current timetable or want to know more about the levee project, click the link below. Currently, the project is projected to end in January 2024.
