

nine months the case counts had shown a steeper ascent coming to a near halt. Counts for the months April '21 through Aug '20 were: 763, 744, 708, 646, 436, 174, 145, 122, and 67.

Our county stood at **42,386** cases, **up only 317 from May's 42,069.**

41,013, 40,105, 38,674, 35,235, 23,681, 13,707, 11,341, 9,785, and 8,000 were the case counts in the nine months prior to May, 2021.

Deadlines continued

The value of deadlines probably CAN be overstated – because hardly any of us would claim that we love to be under the gun. But getting something done without lighting some kind of fire under myself to do it has proven elusive for me all-too-often.

I'll leave you with this relevant quotation from none other than Oscar Wilde:

“I never put off till tomorrow what I can possibly do - the day after.”

Twin Peaks' symbols included in this detail from Beth's painting include an owl and a stark zig-zagging line
